
United States Air Force awards Flight Inspection System contract for Poland PAADF to Airfield Technology

September 2004

Airfield Technology, Inc. of Olathe, Kansas, USA has been awarded a contract from the United States Air Force for the supply of an AT-930DG Flight Inspection System for the Polish Air and Air Defense Forces (PAADF).

The new system will be used to support the flight inspection and calibration of new ICAO-compatible navigational aids currently being installed in Poland.

The Foreign Military Sales group of the Electronic Systems Center Global Air Traffic Operations Mobility Command (ESC/GAF) at Hansom Air Force Base issued a request for proposals in June 2004.
